

EDMUND G. BROWN JR.
GOVERNOR

MATTHEW RODRIGUEZ
SECRETARY FOR
ENVIRONMENTAL PROTECTION

Los Angeles Regional Water Quality Control Board

October 20, 2016

Mr. Christopher Cannon
The Port of Los Angeles
425 South Palos Verdes Street
San Pedro, CA 90733-0151

TERMINATION OF GENERAL WASTE DISCHARGE REQUIREMENTS FOR AVALON TRIANGLE PROPERTY, AVALON & HARRY BRIDGES BOULEVARD, WILMINGTON, CALIFORNIA (FILE NO. 11-140, ORDER NO. R4-2007-0019, SERIES NO. 195, CI-9846, GLOBAL ID WDR100001826)

Dear Mr. Cannon:

On August 28, 2012, the Los Angeles Regional Water Quality Control Board (Regional Board) informed you that the in-situ chemical oxidation (ISCO) injection of sodium persulfate as a pilot test for groundwater remediation is regulated under Regional Board Order No. R4-2007-0019, which specifies your Waste Discharge Requirements (WDR).

In a letter dated October 3, 2016, you requested the termination of the WDR coverage under Regional Board Order No. R4-2007-0019 because the ISCO injection activities were completed in April 2014, and no additional injection activities are planned. Therefore, the WDR is no longer needed. The coverage for the subject facility, under Regional Board Order No. R4-2007-0019, is hereby terminated with the exception of enforcement under the term of the permit.

If you have any additional questions, please contact the Project Manager, Mr. David Koo at (213) 620-6155 (david.koo@waterboards.ca.gov) or the Groundwater Permitting Unit Chief, Dr. Eric Wu at (213) 576-6683 (eric.wu@waterboards.ca.gov).

Sincerely,

A handwritten signature in blue ink that reads "Samuel Unger".

Samuel Unger, P.E.
Executive Officer
