
Los Angeles Regional Water Quality Control Board

April 26, 2017

Mr. Joey Cupp
Pilot Logistics Services
5508 Lonas Drive
Knoxville, Tennessee 37909

**TERMINATION OF COVERAGE UNDER GENERAL WASTE DISCHARGE REQUIREMENTS
– MAXUM PETROLEUM FACILITY, 1028 SOUTH SEASIDE AVENUE, SAN PEDRO,
CALIFORNIA (FILE NO. 13-015, ORDER NO. R4-2007-0019, SERIES NO. 216, CI-9926,
GLOBAL ID. WDR100010305)**

Dear Mr. Cupp,

On July 26, 2013, this Regional Water Quality Control Board (Regional Board) informed you that the subject discharge is regulated under Regional Board Order No. R4-2007-0019, which specifies your Waste Discharge Requirements (WDR).

In the letter dated March 22, 2017, you requested termination of the WDR coverage under Regional Board Order No. R4-2007-0019 because application of activated persulfate was completed in September 2013 and no additional in-situ remediation activities are planned in the future. Therefore, the WDR is no longer needed. The coverage under Regional Board Order No. R4-2007-0019 for the subject site is hereby terminated with the exception of enforcement under the term of the permit.

If you have any questions, please contact the Project Manager, Dr. Ann Chang at (213) 620-6122 (ann.chang@waterboards.ca.gov), or the Chief of Groundwater Permitting Unit, Dr. Eric Wu at (213) 576-6683 (eric.wu@waterboards.ca.gov).

Sincerely,

Samuel Unger, P.E.
Executive Officer
