Los Angeles Regional Water Quality Control Board

June 10, 2016

Mr. William Corn

Long Beach, CA 90802

Dear Mr. Corn:

TERMINATION OF COVERAGE UNDER GENERAL NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM AND WASTE DISCHARGE REQUIREMENTS—SFI JOINT VENTURE, GERALD DESMOND REPLACEMENT PROJECT, 280 PIER T AVENUE, LONG BEACH, CALIFORNIA (NPDES NO. CAG994004, CI-9958)

The subject discharge is regulated under Order No. R4-2013-0095, *General National Pollutant Discharge Elimination System Permit and Waste Discharge Requirements for Groundwater Discharges from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on June 6, 2013.

We have reviewed an email from Ms. Agatha Kim of your office dated May 4, 2016, requesting termination of your coverage under the General Permit. The email indicated that you are no longer discharging treated wastewater to the storm drain system from the above-referenced facility and that the subject NPDES permit is no longer needed.

On June 08, 2016, Board staff inspected the project site and verified that there is no discharge of wastewater from the facility to surface water. Since there is no discharge of wastewater from the facility, coverage under Board Order R4-2013-0095, General NPDES Permit No. CAG994004 for the facility is hereby terminated, except for enforcement purposes.

Please note that if future discharges of wastewater to surface waters or land become necessary, you must file a Report of Waste Discharge with this Board and obtain appropriate waste discharge requirements.

If you have any questions, please contact Gensen Kai at (213) 576-6651.

Sincerely,

Samuel Unger, P.E.
Executive Officer
