- WELL SITE B24C, 14650 E. NELSON AVENUE, CITY OF INDUSTRY (NPDES NO. CAG994004, CI-9959)

Dear Mr. Ramos:

The subject discharge is regulated under Order No. R4-2013-0095, *General National Pollutant Discharge Elimination System and Waste Discharge Requirements for Discharges of Groundwater from Construction and Project Dewatering to Surface Waters in Coastal Watersheds of Los Angeles and Ventura Counties*, adopted by this Board on June 6, 2013.

On November 18, 2014 the State Water Resources Control Board (State Water Board) adopted the *Statewide National Pollutant Discharge Elimination System (NPDES) Permit for Drinking Water Systems Discharges to Waters of the United States* (Order WQ 2014-0194-DWQ, General Order No. CAG140001). The Order provides regulatory coverage for short-term or seasonal planned and emergency (unplanned) discharges resulting from a water purveyor's essential operations and maintenance activities undertaken to comply with the federal Safe Drinking Water Act, the California Health and Safety Code, and the State Water Board's Division of Drinking Water permitting requirements for providing reliable delivery of safe drinking water. The order became effective on February 26, 2015.

On August 12, 2015, San Gabriel Valley Water Company El Monte System submitted a completed application package to State Water Board for coverage under the Statewide Drinking Water Systems Discharge Permit. On October 2, 2015, the State Water Board issued a Notice of Applicability to San Gabriel Valley Water Company El Monte System for coverage under the Statewide Drinking Water Systems Discharge Permit. Therefore, coverage for San Gabriel Valley Water Company's Well Site B24C (WDID 4B198901003, CI-9959) under the Regional Water Board Order R4-2013-0095, General NPDES Permit No. CAG994004 is no longer necessary and is hereby terminated, except for enforcement purposes.
