

EDMUND G. BROWN JR.
GOVERNOR

MATTHEW RODRIGUEZ
SECRETARY FOR
ENVIRONMENTAL PROTECTION

Los Angeles Regional Water Quality Control Board

December 22, 2014

Mr. Brian Lloyd
ENI Petroleum Company, Inc.
1200 Smith Street, Suite 1700
Houston, TX 77002

TERMINATION OF GENERAL WASTE DISCHARGE REQUIREMENTS FOR FORMER GOLDEN REFINERY AND GARDENA VALLEY LANDFILL #5, 21000 SOUTH FIGUEROA STREET, CARSON, CALIFORNIA (FILE NO. 13-077, CI-9972, ORDER NO. R4-2007-0019, SERIES NO. 231, GLOBAL ID WDR100012436)

Dear Mr. Lloyd:

On August 20, 2013, Regional Water Quality Control Board (Regional Board) informed you that the application of Klozur sodium persulfate ($\text{Na}_2\text{S}_2\text{O}_8$) as in-situ chemical oxidation (ISCO) pilot study for groundwater remediation of volatile organic compounds (VOCs) is regulated under Regional Board Order No. R4-2007-0019, which specifies your Waste Discharge Requirements (WDR).

In a letter dated December 3, 2014, you requested the termination of the WDR coverage under Regional Board Order No. R4-2007-0019 because the ISCO pilot study was completed in January 2014, and no additional injection of remedial compounds is planned. Therefore, the WDR is no longer needed. The coverage for the subject facility, under Regional Board Order No. R4-2007-0019, is hereby terminated with the exception of enforcement under the term of the permit.

If you have any additional questions, please contact the Project Manager, Mr. David Koo at (213) 620-6155 (dkoo@waterboards.ca.gov) or the Groundwater Permitting Unit Chief, Dr. Eric Wu at (213) 576-6683 (ewu@waterboards.ca.gov).

Sincerely,

Samuel Unger, P.E.
Executive Officer
