**Public Notice No. 25-004**

**PROPOSED AMENDMENT TO**

**WASTE DISCHARGE REQUIREMENTS (WDRs) AND  
WATER RECLAMATION REQUIREMENTS (WRRs)**

<b>DISCHARGER</b>	<b>FACILITY LOCATION</b>	<b>RECEIVING WATER</b>
Camrosa Water District - Camrosa Water Reclamation Facility	1900 South Lewis Road, Camarillo, California	Pleasant Valley Groundwater Basin

The Camrosa Water District (CWD or Permittee) owns and operates the Camrosa Water Reclamation Facility (Camrosa WRF), a publicly owned treatment works located at 1900 South Lewis Road, Camarillo, California, with a dry weather design capacity of 2.25 million gallons per day (MGD). During normal operation, almost 100% of the tertiary-treated effluent is beneficially reused for crop and landscape irrigation. CWD operates and maintains the recycled water distribution system and conducts training/inspections of individual user sites.

The Camrosa Water District is currently subject to Waste Discharge Requirements (WDRs) and Water Reclamation Requirements (WRRs) set forth in Order No. R4-2019-0118. The Camrosa WRF is also currently permitted to discharge recycled water to Calleguas Creek under the National Pollutant Discharge Elimination System (NPDES) permit (NPDES No. CA0059501). The Discharger requested to terminate NPDES Permit No. CA0059501; therefore, an amendment to Order No. R4-2019-0118 is being proposed to ensure the Camrosa WRF continues to be properly operated and maintained and to ensure the stormwater and biosolids from the Camrosa WRF are properly managed. The proposed amendment incorporates requirements from NPDES Permit No. CA0059501 regarding stormwater, the Spill Clean-up Contingency Plan (SCCP), the Climate Change Effects Vulnerability Assessment and Mitigation Plan, biosolids and sludge, spill reporting, construction, operation, and maintenance, best management practices (BMPs), and additional prohibitions. In addition to the requirements in the NPDES permit, volumetric reporting requirements are also incorporated in this amendment, consistent with State Water Resources Control Board Order No. WQ 2019-0037-EXEC. The amendment to Order No. R4-2019-0118 and the termination of NPDES Permit No. CA0059501 are being proposed concurrently at the same Board hearing.

On the basis of preliminary staff review and application of lawful standards and regulations, the Los Angeles Regional Water Quality Control Board (Los Angeles Water Board) tentatively proposes to issue an amendment to WDRs/WRRs Order No. R4-2019-0118.
