MEMORANDUM

To: Joanne Cox

Date: 11/19/04

File# 04-0930-01 S

Phone: 916-323-6225

From: OAL Front Counter

Subject: RETURN OF APPROVED RULEMAKING MATERIALS

OAL hereby returns this Approved file your agency submitted for our review.

If this is an approved file, it contains a copy of the regulation(s) stamped "ENDORSED FILED" by the Secretary of State. The effective date of an approved file is specified on the date Form 400 (see item B.4) Note : The 30th Day after filing with the Secretary of State is calculated from the date Form 400 was stamped "ENDORSED FILED" by the Secretary of State.

**DO NOT DISCARD OR DESTROY THIS FILE**

Due to its legal significance, please retain this rulemaking record. Government Code section 11347.3(d) requires that this record be available to the public and to the courts for possible later review. Government Code section 11347.3(e) further provides that " ...no item contained in the file shall be removed, altered, or destroyed or otherwise disposed of ." See also the Records Management Act (Government Code section 14740 et seq.) and the State Administrative Manual (SAM) section 1600 et seq.) regarding retention of your records. If you decide not to keep this rulemaking at your agency office or at the State Records Centre, you may transmit it to the State Archives with instructions that the Secretary of State shall not remove, alter, or destroy or otherwise dispose of any item contained in the file. See Government Code section 11347.3(f)

## **CONCISE SUMMARY of Regulatory Provisions**

### **Total Maximum Daily Load for Chloride in the Upper Santa Clara River.**

The Los Angeles Regional Water Quality Control Board (Regional Board) adopted under Resolution Nos. 02-018, 03-008, and 04-004 a Total Maximum Daily Load (TMDL) for Chloride in the Upper Santa Clara River. The TMDL specifies concentration-based targets for chloride, which must be fully attained 13 years after the effective date of the TMDL. The TMDL allocated interim wasteloads for chloride to the County Sanitation Districts of Los Angeles County's (Districts') Saugus and Valencia Water Reclamation Plants. It requires the Districts to conduct special studies to evaluate the appropriate threshold for the protection of sensitive agricultural supply use and Endangered Species Protection, determine the interaction between surface water and groundwater as it may affect the loading of chloride and its linkage to surface water quality, determine Site-Specific Objectives for Chloride for Sensitive Agriculture, develop an Anti-Degradation Analysis for Revision of Chloride Objective by Site-Specific Objectives, and develop a pre-planning report on conceptual compliance measures to meet different hypothetical final wasteload allocations. The Regional Board will re-evaluate the implementation schedule 12 months after the effective date of the TMDL and, if necessary, 9 years after the effective date of the TMDL.
