On 16 June 2009, the Executive Officer of the Central Valley Regional Water Quality Control Board issued a Notice of Applicability granting coverage under the State Water Resources Control Board's *Statewide General Waste Discharge Requirements for Discharges to Land with a Low Threat to Water Quality* (Order 2003-003-DWQ) to the Contra Costa Water District. The Notice of Applicability was for temporary discharge of extracted groundwater during excavation of the Contra Costa Canal and pipeline construction for the Contra Costa Canal Replacement Project.

Your 10 July 2013 letter and Notice of Termination state that Phase 1 of the project has been completed and the remainder of the project is covered under Order 2003-003-DWQ-0043, which was issued 19 June 2013. Therefore, coverage under Order 2003-003-DWQ-0007 is hereby rescinded.
