SECRETARY FOR
ENVIRONMENTAL PROTECTION

Central Valley Regional Water Quality Control Board

22 February 2019

Paul Lopez, Superintendent
Mendota Unified School District
115 McCabe Avenue
Mendota, CA 93640

RESCISSION OF COVERAGE UNDER GENERAL ORDER NO. R5-2015-0012, UNDERGROUND STORAGE TANK RELEASE, WASHINGTON ELEMENTARY SCHOOL, 1599 5th STREET, MENDOTA, FRESNO COUNTY, RB CASE 5T10000115

On 8 February 2019, BSK Associates (BSK) submitted a request to the Central Valley Regional Water Quality Control Board (Central Valley Water Board) staff on behalf of the Washington Elementary School, to terminate coverage from Monitoring and Reporting Program No. R5-2015-0012-008 (MRP) under Waste Discharge Requirements General Order for *In-Situ Groundwater Remediation and Discharge of Treated Groundwater to Land*, Order R5-2015-0012 (General Order), issued by the Central Valley Water Board on 9 March 2018 for the site.

Remedial action, comprised of ozone injection with soil vapor extraction, was conducted to reduce hydrocarbons in soil and groundwater at the site. Groundwater, soil vapor, and ozone monitoring was conducted in accordance with the MRP to record the influence of the remediation process. The system was operated from 7 June through 2 November 2018, and groundwater monitoring was conducted from 14 June through 21 December 2018. BSK finds that further compliance with the General Order is considered unnecessary as remediation has reached minimum returns and there is no plan to re-start the treatment system.

Enrollment of the Site from the General Order is hereby terminated.

If you have any questions regarding the rescission of coverage under the General Order for the site, please contact Khalid Durrani at (559) 445-6191 or at khalid.durrani@waterboards.ca.gov.
