Re: Comments - Tentative WDRs for Sunshine Raisin Corporation DBA Nation Raisin Company
Exeter Dehydrator, Inc. Facility and Ernest Bedrosian Trust

Dear Ms. Carpenter:

On behalf of Exeter Dehydrator, Inc. the following comments are provided with regards to the
Tentative Waste Discharge Requirements.

Tentative Waste Discharge Requirements

- Page 1 - Paragraph 3. "... which consists of approximately 150 **farmed** acres of land ..."
- Page 4 - Paragraph 16. "... is hauled off-site **on a daily basis for compost to the landfill for disposal.**" Because the volume of solid processing waste is such a small volume, Exeter Dehydrator is proposing to take all of this waste to the landfill for disposal.
- Page 4 – Paragraph 19. "... or **applied** as a side**dress spray application** from a water truck between the orchard rows.

Tentative Monitoring & Reporting Program

- Page 2 – "The Discharger shall monitor effluent at EFF-001 **entering the pond** during the ..." EFF-001 is described in the monitoring location table.

Information Sheet

- Page 2 – Last Paragraph "... or applied as a side**dress spray** from a water truck..."

Respectfully,

Donald Ikemiya, RCE 56,630
