

ITEM: 9

SUBJECT: Update on Oil Field Program Update Activities – Informational Item Only

BOARD ACTION: None. Informational item only. No action will be taken.

SUMMARY: This item is an update on Central Valley Water Board Oil Field Regulatory Program activities. Staff will report on its work to address:

1. The implementation of the three General Orders the Board adopted in April for discharges of produced water to ponds,
2. The progress of the Food Safety Expert Panel that Board staff convened to look at irrigation of crops with treated and blended produced water,
3. Staff activities associated with Class II underground injection wells, and
4. Staff activities associated with well stimulation (fracking).

Additional information is available at the Board's website at:

[https://www.waterboards.ca.gov/centralvalley/water\\_issues/oil\\_fields/](https://www.waterboards.ca.gov/centralvalley/water_issues/oil_fields/)

RECOMMENDATION: This is an informational item only; no recommendations are provided.
