

LATE REVISIONS
CITY OF TURLOCK
REGIONAL WATER QUALITY CONTROL FACILITY
STANISLAUS COUNTY

Renewal of
National Pollution Discharge Elimination System (NPDES)
Permit CA0078948

California Regional Water Quality Control Board
Central Valley Region
Board Meeting - 18/19 February 2021
Agenda Item No. 10.d

The following late revisions have been made to the proposed NPDES Permit for the City of Turlock (Discharger) Regional Water Quality Control Facility to provide clarification and correct typographical errors.

1. **Page 3. Section II.D. Provisions and Requirements Implementing State Law.** This section was missing references to Sections IV.C.4 and VI.C.5.c and has been corrected, as shown below.
 - D. **Provisions and Requirements Implementing State Law.** The provisions/requirements in subsections IV.B, IV.C, V.B, VI.C.4, VI.C.5.c, and VI.C.6.a are included to implement state law only. These provisions/requirements are not required or authorized under the federal CWA; consequently, violations of these provisions/requirements are not subject to the enforcement remedies that are available for NPDES violations.
2. **Page E-24. Section IX.C.5. Table E-11 Testing Requirements.** This section incorrectly referenced Table E-13. The reference to Table E-13 was corrected to read Table E-11, as shown below.
 5. **Table E-11 Testing Requirements.** The Discharger shall comply with the following testing requirements when monitoring for the parameters described in Table E-11.
3. **Page E-24. Section IX.C.5.a Table E-11 Testing Requirements.** This subsection incorrectly referenced Tables E-3 and E-4. The reference to Tables E-3 and E-4 was corrected to reference only Table E-3, as shown below.
 - a. The Discharger is not required to conduct effluent monitoring for constituents that have already been sampled in a given quarter, as required in Tables E-3, except for hardness, pH, and temperature, which shall be conducted concurrently with the effluent sampling.

Late Revisions

18/19 February 2021 Central Valley Water Board Meeting

Agenda Item 10.d, City of Turlock, Regional Water Quality Control Facility, NPDES

Permit Renewal

4. **Page E-34. Section X.D.7. Technical Report Submittals. Table E-13.** Report number 19 in Table E-13 was updated to clarify that the Discharger must notify the Central Valley Water Board when the Standard Operating Procedures for Resource Recovery from Anaerobically Digestible Material has been updated, as shown below.

Report #	Technical Report	Due Date	CIWQS Report Name
19	Notification that the Standard Operating Procedures for Resource Recovery from Anaerobically Digestible Material has been Updated	1 October 2021	VI.C.5.c

5. **Page F-88. Table F-15. Summary of Final Effluent Limitations.** The effluent limitation summary for electrical conductivity incorrectly referenced Table Note 5. The reference to Table Note 5 was corrected to reference Table Note 4, as shown below.

Parameter	Units	Effluent Limitations	Basis (see table note 1 below)
Electrical Conductivity @ 25°C	µmhos/ cm	1,250 (see table note 4 below)	FP
