The Central Valley Regional Water Quality Control Board (Central Valley Water Board) adopted Order R5-2022-0006, General Waste Discharge Requirements for Limited Threat Discharges to Surface Water (Limited Threat General Order), on 17 February 2022. The Limited Threat General Order applies to individuals, public agencies, private businesses, and other legal entities discharging limited threat wastewater to waters of the United States within the Central Valley Region.

A tentative Order is proposed to amend the Limited Threat General Order to allow enrollment of one of the Boeing Company's groundwater extraction and treatment (GET) systems under the Limited Threat General Order. Amendments to the Limited Threat General Order include adding monitoring, a screening level, and an effluent limitation for perchlorate based on best available technology and monitoring and effluent limitations specific to the Boeing Company's GET systems for chloroform and cis-1,2-Dichloroethene. The amendment also proposes minor corrections to language related to the Conservative Pathway of the Salt Control Program.
