**REVISED NOTICE OF PUBLIC HEARING**

concerning

**TENTATIVE ORDER AMENDING  
WASTE DISCHARGE REQUIREMENTS ORDER R5 2023-0033  
NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM  
PERMIT CA0084271  
FOR  
CITY OF MOUNTAIN HOUSE  
WASTEWATER TREATMENT PLANT  
SAN JOAQUIN COUNTY**

**Discharger and Tentative Order Information**

The City of Mountain House (Discharger) is the owner and operator of the Wastewater Treatment Plant (Facility), located at 17103 W. Bethany Road, Mountain House, CA 95391. The Discharger provides sewerage service for the community of Mountain House and serves a population of approximately 21,750. The current design average dry weather flow (ADWF) capacity of the Facility is 3.0 MGD, with plans to expand the capacity up to 5.4 MGD to accommodate for planned growth within the service area. Disinfected tertiary treated wastewater from the Facility is discharged to Old River, a water of the United States within the legal boundary of the Sacramento-San Joaquin Delta.

The Discharger has completed construction of modifications and improvements to the Facility to improve treatment reliability and production of effluent quality that meets Title 22 recycled water applications, and the average dry weather flow treatment capacity has increased to 4 MGD. The Facility improvements included installation of two new influent pumps, new ultra-fine screening and grit removal headworks, replacing the sequencing batch reactors (SBRs) and disk filters with membrane bioreactors (MBRs), and upgrading the UV disinfection system. The capacity of the influent pump station has increased to 18 MGD to sustain peak wet weather flows.

On 28 January 2025 the Discharger requested an expansion of the permitted ADFW from 3 MGD to 4 MGD to be discharged to the Old River and provided the information demonstrating compliance with WDRs Section VI.C.1.i of the current Order.

Discharges from the Facility are currently regulated by Waste Discharge Requirements Order R5-2023-0033, issued by the Central Valley Regional Water Quality Control Board (Central Valley Water Board) on 22 June 2023. An Order is proposed to amend the NPDES permit to increase the ADFW from 3 MGD to 4 MGD.
