APPROVAL OF THE TULE BASIN WATER QUALITY COALITION PESTICIDE MONITORING PROTOCOL PROPOSAL FOR THE 2024 WATER YEAR

Thank you for submitting the 2024 Water Year Pesticide Monitoring Proposal for the Tule Basin Water Quality Coalition. The proposed pesticides were identified based on guidance provided in the Pesticide Evaluation Protocol (PEP) as required by section III.B.2. of the Monitoring and Reporting Program (MRP) Attachment B to Order R5-2013-0120-09.

Water Board staff have determined that the proposal complies with the MRP requirements. Pesticides were identified using the approved PEP, and the proposed monitoring schedule is consistent with the requirements of the Order.

I approve the proposal for pesticide monitoring to be completed for water year 2024. If you have any questions or comments regarding this approval letter, please contact Chris Jimmerson by phone at (916) 464-4859 or by email at chris.jimmerson@waterboards.ca.gov.
