APPROVAL OF 2024 SURFACE WATER MONITORING PLAN UPDATE – KINGS RIVER WATER QUALITY COALITION

Thank you for your 30 October 2023 submission of the Surface Water Monitoring Plan (SWMP) Update within the Kings River Water Quality Coalition area, as required by Waste Discharge Requirements General Order R5-2013-0120-09 (General Order).

I am approving the update to the SWMP to remove total Kjeldahl nitrogen (TKN), total phosphorus, and fecal coliform from the list of monitored analytes, as these monitoring constituents are not required to be monitored under the General Order. Additionally, the change of laboratory analytical method for *Escherichia coli* (*E. coli*) from SM 9221 to SM 9223 is approved.

If you have any further questions regarding this letter, please contact Mathew Jian at (559) 445-5567 or by email at Mathew.Jian@waterboards.ca.gov.
