

[REDACTED]

Dear Ms. Grover,

The delay of compliance date for the Clear Lake Nutrient TMDL should NOT BE ALLOWED because that means more years before the county, cities and forest service/blm need to be in compliance with the nutrient loading requirements of the TMDL.

NO EXTENSION ON THE COMPLIANCE DATES!

The Clear Lake Nutrient TMDL was what was put in place to eliminate Nuisance Algal/Cyanobacteria Blooms. If we allow delays with compliance, there will be delays with ending the cyanobacteria blooms!

I am a Lake County resident and I do not support extending the compliance dates for Clear Lake Nutrient TMDL.

Lisa Wilson
