**To:** Patty Executive Officer Lahontan Water Board  
[REDACTED]  
**Subject:** Public comment period

This is a letter of complete disapproval to the public comment period it states in your letter for comment that you received written requests to change the CAO the written request that you did receive was not the first reminder this was a formal request at the last board meeting held in Barstow so your request for public comment is written wrong also we have always been told that any request given to the board would be answered in a timely manor your staff simply forgot that it had been a request at of the board when asked about what was going on the temporary executive officer in my opinion blew it off waiting until you returned to make a decision the community loses once again
