	)	

This Settlement Agreement and Stipulation for Entry of Administrative Civil Liability Order R7-2024-0026 (Settlement Agreement or Stipulated Order) is entered into by and between the Prosecution Team (Prosecution Team) for the Colorado River Basin Regional Water Quality Control Board (Regional Water Board) and Palm Springs Unified School District (Discharger) (the Regional Water Board and the Discharger are collectively referred to as the Parties) and is presented to the Regional Water Board or its delegee, for adoption as an Order by settlement, pursuant to Government Code section 11415.60. This Settlement Agreement accepts the stipulations for settlement of administrative civil liability assessed in the amount of \$78,777.87 to the Discharger for violations of Waste Discharge Requirements (WDRs) Order R7-2012-0001 (Rancho Mirage High School Cooling Towers WDRs).

**A. RECITALS**

1. The Discharger owns and operates a cooling tower system used for temperature control at Rancho Mirage High School (RMHS), located at 31001 Rattler Road, Rancho Mirage, California.
2. RMHS is located in the Coachella Hydrologic Subunit. The Regional Water Board's Water Quality Control Plan, last amended in 2023, designates beneficial uses for groundwater in the Coachella Hydrologic Subunit as Municipal and Domestic Supply (MUN), Industrial Service Supply (IND), and Agricultural Supply (AGR).
3. On January 19, 2012, the Regional Water Board adopted WDRs Order R7-2012-0001 to regulate discharges of cooling tower blowdown to drywells, which overflow to an on-site stormwater collection system at RMHS. The WDRs specify effluent limitations, prohibitions, specifications, and provisions necessary to protect the beneficial uses of groundwaters in the Coachella Hydrologic Subunit and to prevent nuisance conditions. Among these requirements, the WDRs require the Discharger to submit monthly, quarterly and annual monitoring reports.
4. The WDRs section D.12 states "[t]he Discharger shall comply with Monitoring and Reporting Program (MRP) R7-2012-0001, and future revisions thereto, incorporated herein and made a part of this Board Order by reference, as specified by the Regional Water Board Executive Officer."

- a. The MRP requires the Discharger to monitor the discharge from the cooling towers according to the following schedule:

Constituents	Units	Type of Sample	Sampling Frequency	Reporting Frequency
Flow	gpd <sup>1</sup>	Measurement <sup>2</sup>	Daily	Monthly
Total Dissolved Solids	mg/L <sup>3</sup>	Grab	Monthly	Monthly
pH	s.u. <sup>4</sup>	Grab	Weekly	Monthly
General Minerals	mg/L	Grab	Annually	Annually <sup>5</sup>
Total Metals <sup>6</sup>	µg/L <sup>7</sup>	Grab	Annually	Annually
VOCs <sup>8</sup>	µg/L	Grab	Annually	Annually
<sup>1</sup> Gallons per day (average daily flow calculated from monthly meter readings) <sup>2</sup> Flow Meter Reading <sup>3</sup> Milligrams per liter <sup>4</sup> Standard Units <sup>5</sup> Annual monitoring shall be conducted between June 1 and August 31 of each year <sup>6</sup> Metals analyses shall include at a minimum Aluminum, Iron and CAM 17 metals <sup>7</sup> Micrograms per liter <sup>8</sup> Volatile Organic Compounds (EPA Methods 624 and 625)				

- b. The MRP also requires the Discharger to establish a sampling station to collect representative samples of water supplied to the facility for municipal use. At a minimum the Discharger the municipal water supply for the following constituents:

Constituents	Units	Sampling Frequency
Total Dissolved Solids	mg/L	Quarterly
Water Supply Report <sup>9</sup>	----	Annually
<sup>9</sup> A copy of Coachella Valley Water District's Annual Domestic Water Quality Summary shall be submitted with the Annual Monitoring Report.		

5. The Discharger failed to timely submit monitoring reports as required by the RMHS WDRs. Between January 19, 2012, to November 2022, the Discharger consistently failed to submit timely Monthly, Quarterly, and Annual Monitoring Reports. The Prosecution Team is exercising its prosecutorial discretion by foregoing pursuit of administrative civil liabilities for any late reporting violations. In addition, it is exercising discretion by foregoing pursuit of administrative civil liabilities for reports in 2016 and 2017, which were never submitted.
6. The application of the Enforcement Policy and exercise of prosecutorial discretion has resulted in the assessment of a total of 2,597 days of violation for 80 missing reports, which is detailed in Attachment A.

7. Water Code section 13268 provides that any person who fails to furnish monitoring program reports may be subject to administrative civil liability of up to \$1,000 per day of violation.
8. The State Water Resources Control Board's *Water Quality Enforcement Policy* (Enforcement Policy) establishes a methodology for determining administrative civil liability by addressing the factors that are required to be considered under Water Code section 13327. The application of the Enforcement Policy to this violation is detailed in Attachment A. Application of the methodology results in a final administrative civil liability amount of \$87,530.97.
9. The Parties have engaged in settlement negotiations and agree to fully settle the matter without administrative or civil litigation and by presenting this Stipulated Order to the Regional Water Board or its delegee for adoption as an Order by settlement, pursuant to Government Code section 11415.60. The liability imposed by this Order was reached using the Enforcement Policy, as described in Attachment A. The Prosecution Team has applied a ten percent reduction to the amount described in Attachment A, based on litigation risk. The Prosecution Team believes that the resolution of the alleged violations is fair and reasonable and fulfills all of its enforcement objectives, that no further action is warranted concerning the specific violations alleged in Attachment A, except as provided in this Stipulated Order, and that this Stipulated Order is in the best interest of the public.

The Parties agree that all oral and written statements and agreements made during the course of settlement discussions will not be admissible as evidence in the hearing. The Parties agree to waive any and all objections based on settlement communications in this matter, including, but not limited to:
  - A. Objections related to prejudice or bias of any of the Regional Water Board members or their advisors and any other objections that are premised in whole or in part on the fact that the Regional Water Board members or their advisors were exposed to some of the material facts and the Parties' settlement positions, and therefore may have formed impressions or conclusions, prior to conducting any

contested evidentiary hearing in this matter, except that Discharger may object to members of the Prosecution Team serving as advisors to the Regional Water Board in any such subsequent administrative or judicial proceeding or hearing and may object to the Regional Water Board members or their advisors participation in contested evidentiary hearing on grounds not related to the settlement process addressed in this paragraph, or;

B. Laches or delay or other equitable defenses based on the time-period for administrative or judicial review to the extent this period has been extended by these settlement proceedings.
