Subject: Hydromodification Management Plan Workshop – Summary Report

Dear Ms. Walsh:

On August 30, 2012, the Orange County Stormwater Program was pleased to be able to convene the San Diego Region Hydromodification Management Meeting. This meeting brought together recognized experts and was intended to discuss two questions related to the applicability and requirements for hydromodification management. Please find attached a final report prepared by Yeager Environmental Associates and endorsed by the panelists that summarizes the discussion related to these important questions. The County of Orange would welcome the addition of this report to the Regional Permit – Hydromodification Workshop area of your website.

Please direct any questions regarding this letter to Richard Boon at (714)955-0670.

Very truly yours,

Mary Anne Skorpanich, Manager
OC Watersheds
