

FOCUSED MEETING AGENDA

**Administrative Draft of
Tentative Order No. R9-2012-0011, NPDES No. CAS0109266
Municipal Separate Storm Sewer Systems (MS4s) Draining the Watersheds within the
San Diego Region**

**Wednesday, July 25, 2012
9:30 a.m. - 3:30 p.m.**

9:30 a.m. - 9:40 a.m.	Introductions, Table Participants
9:40 a.m. - 9:50 a.m.	Meeting Recap & Feedback, Lewis Michaelson, Katz & Associates
9:50 a.m. - 10:00 a.m.	Focused Meeting Highlights, David Barker, San Diego Water Board
10:00 a.m. - 10:10 a.m.	Monitoring Requirements Intro, Eric Becker, San Diego Water Board
10:10 a.m. - 11:30 a.m.	Stakeholder Monitoring Presentations, Table Participants
11:30 a.m. - 12:30 p.m.	Lunch
12:30 p.m. - 1:30 p.m.	Discussion on Monitoring Proposals Related to Permit Requirements, Table Participants
1:30 p.m. - 1:45 p.m.	Break
1:45 p.m. - 3:00 p.m.	Discussion on Monitoring Proposals Related to Permit Requirements, Table Participants
3:00 p.m. - 3:30 p.m.	Parking Lot Discussion Comments & Questions All

ELECTRONIC MAIL LIST SUBSCRIPTION

The San Diego Water Board has established an electronic mail list specifically for information and notices on the development of a Regional MS4 Storm Water Permit. The San Diego Water Board will use the email list to notify interested persons of upcoming important events and the availability of on-line documents. Persons interested in receiving future notices and information on this specific project can subscribe to one (1) of the electronic mail lists titled "Orange County MS4 Permit, " Riverside County MS4 Permit, or "San Diego MS4 Permit ", located on the San Diego Water Board website at:

http://www.waterboards.ca.gov/resources/email_subscriptions/req9_subscribe.shtml

Meeting Date	Topic Discussion Questions	Draft Permit Provisions
June 27, 2012 July 11, 2012	<u>ASSESSMENT/PLANNING</u>	
	1. In what ways can the proposed provisions of the administrative draft permit be modified to better assess if the Copermittees' jurisdictional runoff management programs are effectively prohibiting non-storm water discharges to their MS4s?	II.A. Prohibitions and Limitations (includes WQBELs for TMDLs in Attachment E)
	2. In what ways can the proposed provisions of the administrative draft permit be modified to better assess if the Copermittees' jurisdictional runoff management programs are reducing pollutants in storm water to the maximum extent practicable (MEP)?	II.B. Water Quality Improvement Plans
	3. In what ways can the proposed provisions of the administrative draft permit be modified to better assess that improvements are being achieved in the physical chemical, and biological conditions of receiving waters as a result of implementing the Copermittees' Water Quality Improvement Plans?	II.C. Action Levels
	4. How can adaptive management or the "iterative process" be incorporated into the proposed provisions of the administrative draft permit better?	II.D.4.a. MS4 Discharges Assessments
	5. How can the proposed provisions of the administrative draft permit be modified to support a Copermittee's ability to plan and/or procure resources for its jurisdictional runoff management program?	II.D.4.b. Receiving Waters Assessments
	6. How can the proposed provisions of the administrative draft permit be modified to reduce or eliminate any conflicts with other requirements (e.g. TMDLs, ASBS) or programs (e.g. flood management, vector control, water supply, recycled water, groundwater recharge)?	II.D.4.c. Water Quality Improvement Assessments
		II.F.1. Water Quality Improvement Plans
		II.F.2.c. Water Quality Improvement Plan Updates
		II.F.3. Progress Reporting
		II.F.4. Regional Clearinghouse
July 25, 2012	<u>ASSESSMENT/MONITORING</u>	
	1. In what ways can the proposed provisions of the administrative draft permit be changed to improve how the Copermittees collect data to assess whether their jurisdictional runoff management programs are effectively prohibiting non-storm water discharges to their MS4s?	II.D.1. Jurisdictional Monitoring Requirements
	2. In what ways can the proposed provisions of the administrative draft permit be changed to improve how the Copermittees collect data to assess whether their jurisdictional runoff management programs are reducing pollutants in storm water to the MEP?	II.D.2. Watershed Monitoring Requirements
	3. In what ways can the proposed provisions in the administrative draft permit be changed to improve how the Copermittees collect data to assess whether improvements to the physical, chemical, and biological conditions of receiving waters are being achieved as a result of implementing their Water Quality Improvement Plans?	II.D.3. Regional Special Studies
		II.D.4.a. MS4 Discharges Assessments
		II.D.4.b. Receiving Waters Assessments
		II.D.4.c. Water Quality Improvement Assessments
		II.F.3. Progress Reporting
		II.F.4. Regional Clearinghouse

Meeting Date	Topic Discussion Questions	Draft Permit Provisions
August 22, 2012	<u>PLANNING/IMPLEMENTATION</u> - How can adaptive management or the “iterative process” be incorporated into the proposed provisions of the administrative draft permit better? - How can the proposed provisions of the administrative draft permit be modified to support a Copermittee’s ability to plan and/or procure resources for its jurisdictional runoff management program? - How can the proposed provisions of the administrative draft permit be modified to reduce or eliminate any conflicts with other requirements (e.g. TMDLs, ASBS) or programs (e.g. flood management, vector control, water supply, recycled water, groundwater recharge)? - How can the proposed provisions of the administrative draft permit be modified to support a Copermittee’s ability to implement and enforce its jurisdictional runoff management program to effectively prohibit non-storm water discharges to and from its MS4, and reduce pollutants in storm water discharges from its MS4 to the MEP? - How can the proposed provisions of the administrative draft permit be modified to promote retrofitting of existing development and/or implementing projects that can restore or rehabilitate receiving waters as good tools to use as pollution control strategies? - How can the proposed provisions of the administrative draft permit be modified to allow the Copermittees to better focus their resources on improving water quality?	II.B. Water Quality Improvement Plans II.E. Jurisdictional Runoff Management Programs
		II.F.1. Water Quality Improvement Plans II.F.2.a. JRMP Document Updates II.F.2.b. BMP Design Manual Updates II.F.2.c. Water Quality Improvement Plan Updates II.F.3.b. Annual Reports II.F.4. Regional Clearinghouse
