ADDENDUM NO. 2 TO CLEANUP AND ABATEMENT ORDER (CAO) NO. 93-49
 ISSUED TO CHEVRON U.S.A. PRODUCTS COMPANY AND JAMES C. SILVER,
 2712 WASHINGTON STREET; ROBERTA H. GREEN, 2126 MAIN STREET AND
 WILLIS AND LILLIE SLAUGHTER, 2103 MAIN STREET, JULIAN, SAN DIEGO
 COUNTY

The subject CAO was issued in 1993. Since the extent of
 contamination was not known at the time this CAO was issued,
 there was little basis for projecting a final cleanup date.
 Consequently we have determined that the deadline given for
 completion of remediation in the cleanup and abatement order
 warrants extension from April 1, 1995 to April 1, 2000.

Based on the foregoing, I hereby amend CAO No. 93-49. This
 addendum (Addendum No. 2) is effective and will remain in effect
 unless any objection is raised at the March 9, 1995 Board
 meeting. The meeting will begin at 9:00 a.m. at the City of
 Encinitas Council Chambers, 505 South Vulcan, Encinitas,
 California. The meeting is open to the public and you are
 welcome to attend. The Regional Board may decide to further
 investigate the circumstances of this addendum upon request or on
 its own initiative.

Please call Rosalind Dimenstein at (619)467-2977 with any
 questions you may have.

Very truly yours,

Arthur L. Coe

EXECUTIVE OFFICER SUMMARY REPORT
March 9, 1995

ITEM: 15

SUBJECT: Chevron U.S.A. Products Company, 2712
Washington Street; Roberta H. Green,
2126 Main Street; Willis and Lillie
Slaughter, 2103 Main Street, Julian,
California, Addendum No. 2 to Cleanup
and Abatement Order (CAO) No. 93-49

DISCUSSION: Drinking water wells owned and operated
by the Julian Community Services
District, a public agency, have been
impaired by petroleum products in the
ground water.

On April 1, 1993 CAO No. 93-49 was
issued directing the above named parties
to conduct an investigation of the fuel
releases from underground storage tanks
described in the order and to remediate
the resultant contamination by April 1,
1995.

The extent of contamination was not
delineated when CAO No. 93-49 was
issued. After extensive treatment
efforts involving both vapor extraction
and well-head treatment, remediation
is still far from complete and a five-
year extension on the final cleanup date
appears to be warranted.

No board action is required for Addendum
No. 2 to CAO No. 93-49 to go into
effect.
