November 30, 2001

Mr. Ernest Moretti  
P.O. Box 2078  
Borrego Springs, California 92004

Dear Mr. Moretti:

**ADDENDUM NUMBER 1 TO CLEANUP AND ABATEMENT ORDER NO. 99-26**

On September 15, 1999, the California Regional Water Quality Control Board, San Diego Region (RWQCB) issued Cleanup and Abatement Order (CAO) No. 99-26 to you for the Former Santa Ysabel Chevron Service Station in Santa Ysabel, California. CAO No. 99-26 is hereby amended to add the following sections:

19. The table of analytical testing presented in Directive 15 of CAO No. 99-26 shall be replaced with the following table:

<table>
<thead>
<tr>
<th>Constituent</th>
<th>EPA Test Method</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Petroleum Hydrocarbons as gasoline and as diesel</td>
<td>Modified EPA Method 8015</td>
</tr>
<tr>
<td>Benzene, toluene, ethylbenzene, xylenes, methyl tertiary butyl ether, diisopropyl ether, tertiary amyl methyl ether, ethyl tertiary butyl ether, and tertiary butyl alcohol</td>
<td>EPA Method 8260B</td>
</tr>
</tbody>
</table>

20. The discharger shall submit an adequate workplan describing the methods and procedures to be used to monitor and sample domestic and municipal groundwater production wells within the community of Santa Ysabel. The workplan shall include a list of all wells to be tested. An adequate workplan shall be submitted to the RWQCB no later than December 31, 2001.

*California Environmental Protection Agency*

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Web-site at http://www.swrcb.ca.gov.

Recycled Paper
21. The discharger shall monitor and sample domestic and municipal groundwater production wells within the community of Santa Ysabel on a quarterly basis. Collected groundwater samples shall be analyzed in accordance with Directive 19 of this Addendum.

22. The discharger shall include the results of the monitoring and sampling of the domestic and municipal wells in the quarterly monitoring reports required pursuant to Directive 16 of CAO No. 99-26.

23. The discharger shall immediately notify well owners, the RWQCB, and the San Diego County Department of Environmental Health of any detectable concentrations of the tested compounds. Documentation of these notifications shall be submitted to the RWQCB.

24. The discharger shall, by January 7, 2002, submit an adequate workplan to install a new well for each well that has been dry since June 2000. The new wells should be drilled in the vicinity of the dry wells, and should extend to the water table. The new wells shall be drilled and sampled in accordance with Directive 9 of CAO No. 99-26, and Directive 19 of this Addendum.

The discharger shall prepare an adequate technical report of the well installation and initial monitoring and sampling in accordance with Directives 12, 14, and 15 of CAO No. 99-26. An adequate technical report of the well installation and shall be submitted no later than April 15, 2002.

25. The discharger shall monitor and sample the new wells on a quarterly basis pursuant to Directives 9, 14, and 15 of CAO 99-26, and Directive 19 of this Addendum.

26. The discharger shall include the results of the monitoring and sampling of the new wells in the quarterly monitoring reports required pursuant to Directives 14 and 16 of CAO No. 99-26.
If you have any questions regarding this Addendum, please contact Mr. Barry Pulver of my staff at (858) 467-2733.

Respectfully,

John H. Robertus
Executive Officer
San Diego Regional Water Quality Control Board
