

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
SAN DIEGO REGION**

**ADDENDUM NO. 2  
TO  
CLEANUP AND ABATEMENT ORDER NO. 2000-22**

**MKR PROPERTIES INC.**

**PALOMAR PLATING COMPANY, INC.  
722 W. FOURTH AVENUE  
ESCONDIDO, CALIFORNIA  
SAN DIEGO COUNTY**

The California Regional Water Quality Control Board, San Diego Region (hereinafter Regional Board) finds that:

1. **CLEANUP AND ABATEMENT ORDER NO. 2000-22.** Except as contradicted or superseded by the findings and directives set forth in this Cleanup and Abatement Order (CAO) Addendum (Addendum No. 2), all of the previous findings and directives of CAO No. 2000-22 and addenda thereto remain in full force and effect.
2. **SUPPLEMENTAL FEASIBILITY STUDY.** Directive A.1. of Addendum No. 1 to CAO No. 2000-22 requires the Discharger to prepare and submit by August 30, 2007 a supplemental feasibility study that evaluates potential remedial alternatives, including cost and effectiveness of each alternative, for the cleanup or remediation of the waste constituents to attain a range of applicable soil and ground water cleanup levels between background water quality conditions and alternative cleanup levels derived by applying the conditions set forth in Title 23, Chapter 15, Article 5, Section 2550.4. In order to allow additional time for the Discharger to fully address this Directive, the Regional Board has agreed to extend the submittal date to September 14, 2007.

**IT IS HEREBY ORDERED** that, pursuant to California Water Code Section 13304, Directive A.1. of Addendum No. 1 to CAO 2000-22 is amended as follows:

1. **Directive A.1. is deleted and replaced by the following:**

***Supplemental Feasibility Study.*** The Discharger shall prepare and submit by **September 14, 2007** a supplemental feasibility study that evaluates potential remedial alternatives, including cost and effectiveness of each alternative, for the cleanup or remediation of the waste constituents to attain a range of applicable soil and ground water cleanup levels between background water quality conditions and alternative cleanup levels derived by applying the conditions set forth in Title 23, Chapter 15, Article 5, Section 2550.4. Alternative cleanup levels

shall not unreasonably affect present and anticipated beneficial uses of waters and not result in water quality less than that prescribed in the Water Quality and Control Plans and Policies adopted by the State and Regional Board. The supplemental feasibility study shall provide a recommendation on (a) the soil and ground water cleanup levels for the Site and (b) the remedial alternative for attaining the cleanup levels.

I, John H. Robertus, Executive Officer, do hereby certify the forgoing is a full, true, and correct copy of the Addendum No. 2 to Cleanup and Abatement Order No. 2000-22 issued on August 28, 2007.

---

JOHN H. ROBERTUS  
Executive Officer
