Dear Ladies and Gentlemen:

RE: ADDENDUM NO. 2 TO CLEANUP AND ABATEMENT ORDER NO. 2001-226

Enclosed is Addendum No. 2 to Cleanup and Abatement Order (CAO) No. 2001-226. The Order directs you to cleanup and abate the effects of the discharges of gasoline and diesel petroleum wastes at 28111 Front Street, Temecula, California that resulted from leaking underground storage tank systems at the site.

Addendum No. 2 to CAO No. 2001-226 is issued pursuant to California Water Code (CWC) sections 13267 and 13304, and extends the deadline for submission of a complete Corrective Action Plan until September 12, 2003. Please note the deadline contained in the addendum. Failure to meet the deadline may subject you to further enforcement action by the Regional Water Quality Control Board, San Diego Region, (Regional Board) including administrative or judicial proceedings for the assessment of civil liability in amounts of up to \$10,000 per day; referral to the State Attorney General for injunctive relief; and, referral to the District Attorney for criminal prosecution.

California Environmental Protection Agency

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Web-site at <http://www.swrcb.ca.gov>.

Recycled Paper

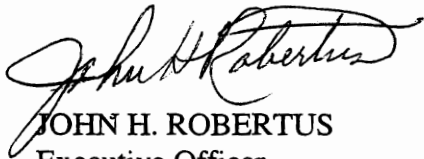

March 26, 2003

You may contest the issuance of this CAO Addendum by requesting a public hearing on the matter before the Regional Board. In order to schedule a hearing this office must receive a written request no later than 5 PM on April 28, 2003 (30days). Be aware that a request for a hearing does not stay the deadline in the CAO Addendum.

I strongly urge a prompt and complete response to the directive in Addendum No. 2 to CAO No. 2001-226. Please contact Ms. Jody Ebsen of my staff at (858) 636-3146 if you have any questions regarding this matter.

Respectfully,

JOHN H. ROBERTUS
Executive Officer

The California Regional Water Quality Control Board, San Diego Region (hereinafter the Regional Board) finds that:

1. Directive A.5 of Addendum No. 1 to Cleanup and Abatement Order (CAO) No. 2001-226 required the above listed parties (hereinafter, dischargers) to submit a Corrective Action Plan (CAP) to the Regional Board by December 15, 2002.
2. In order to fully complete the feasibility study that is a required part of the CAP a time extension is needed.
3. Based on the scope of work needed to complete the feasibility study, and dischargers' estimate of the time needed to complete the work and prepare a complete CAP, an extension of the due date for the CAP from December 15, 2002, until September 12, 2003, is reasonable.

March 26, 2003

4. This action is an Order to enforce the laws and regulations administered by the Regional Board. As such, this action is categorically exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to section 15321 of the Resources Agency Guidelines.

IT IS HEREBY ORDERED, pursuant to sections 13267 and 13304 of the California Water Code, that the dischargers shall cleanup and abate the effects of the discharge as follows:

The due date for the Corrective Action Plan, required by **Directive A.5 of CAO No. 2001-226** is changed from December 15, 2002, (as specified in Addendum No. 1, Directive A.5) to September 12, 2003.

JOHN. H. ROBERTUS
Executive Officer

Date issued: March 26, 2003
