Dear Mr. Orłowski:

RE: ADDENDUM NO. 2 TO CLEANUP AND ABATEMENT ORDER NO. R9-2002-0340

On November 8, 2002, the Regional Water Quality Control Board, San Diego Region (RWQCB) issued Cleanup and Abatement Order (CAO) No. R9-2002-0340 to the Shell Oil Products US for a release of petroleum constituents that have created a condition of pollution at the gas station located on 44260 Redhawk Parkway, Temecula, California. The petroleum release from the Shell gas station threatens a total of three public water supply wells. Two existing public supply wells are located within 400 feet and a third public supply well within 1,000 feet of the facility. Because of the immediate threat of pollution posed to the nearby public water supply wells, Directive A.2 ordered Shell Oil Products US to implement quarterly ground water monitoring. Enclosure 1 to the CAO specified that you collect and analyze ground water samples for total petroleum hydrocarbons as diesel (TPH_d) in addition to other constituents.

On July 2, 2004, your consultant sent the RWQCB a request to discontinue analysis on ground water for TPH_d. The reason given for the request is that TPH_d has not been detected in quarterly ground water monitoring between December 7, 2001 and April 28, 2004. The RWQCB hereby concurs with your request to modify the current monitoring and reporting requirements of CAO No. R9-2002-0340.

Therefore, Enclosure I to CAO No. R9-2002-0340 is amended as follows:

- 2. MONITORING:** The discharger shall measure groundwater elevations quarterly in all monitoring wells, and shall collect and analyze samples of groundwater from all monitoring wells using U.S. Environmental Protection Agency (EPA) analytical method 8015 for quantifying total petroleum hydrocarbons as gasoline, or an equivalent method approved by the Regional Board, and EPA method 8260b for volatile organic compounds including benzene, toluene, ethylbenzene, xylenes, methyl tertiary butyl ether (MTBE), tertiary butyl alcohol (TBA) and all other fuel oxygenates.

Mr. Orłowski
Addendum No. 2 to CAO R9-2003-0111

- 2 -

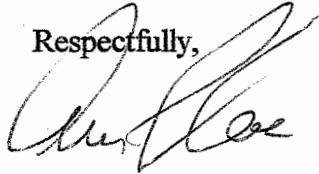

August 16, 2004

You may contest the issuance of this CAO Addendum by requesting a public hearing on the matter before the Regional Board. In order to schedule a hearing this office must receive a written request no later than 5 PM on September 20, 2004 (30days). Be aware that a request for a hearing does not stay deadlines in the CAO.

The heading portion of this letter includes a Regional Board code number noted after "In reply refer to:" In order to assist us in the processing of your correspondence please include this code number in the heading or subject line portion of all correspondence and reports to the Regional Board pertaining to this matter.

If you have any questions regarding this letter to the discharge requirements, please contact Ms. Sue Pease at (858) 637-5596, or e-mail her at peass@rb9.swrcb.ca.gov.

Respectfully,

John H. Robertus
Executive Officer
