

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN DIEGO REGION**

ORDER NO. R9-2020-0178

**AN ORDER RESCINDING ORDER NO. 94-05, WASTE DISCHARGE REQUIREMENTS
FOR ALL SEASONS RV PARK, LLC, MR. LARRY TARDIE, ALL SEASONS RV PARK,
SAN DIEGO COUNTY**

The California Regional Water Quality Control Board, San Diego Region (hereinafter San Diego Water Board) finds that:

1. Order No. 94-05, *Waste Discharge Requirements for Mr. Martin S. Zaunich, All Seasons Campground, San Diego County* (Order No. 94-05), established requirements for the discharge of domestic wastewater from an onsite wastewater treatment system (OWTS) through an extended aeration package plant system, which consists of an aeration basin, a settling basin, and a solids drying bed. The All Seasons RV Park is located at 30012 Old Highway 395, Escondido, California. The San Diego Water Board adopted Order No. 94-05 on February 10, 1994.
2. Addendum No. 1 to Order No. 94-05, *An Addendum Transferring Responsibility to All Seasons RV Park, LLC, Mr. Larry Tardie, All Seasons RV Park, San Diego County* (Addendum No. 1), modified Order No. 94-05 transferring responsibility for complying with the established waste discharge requirements (WDRs) for the All Seasons RV Park OWTS to Mr. Larry Tardie, All Seasons RV Park, LLC. The All Seasons RV Park OWTS domestic wastewater average daily flow is approximately 5,000 gallons per day. The San Diego Water Board adopted Addendum No. 1 on May 14, 2003.
3. Order No. 94-05 and Addendum No. 1 must be replaced to ensure that the discharges are regulated consistent with current State policy and requirements. Discharges from small package treatment plants and OWTS such as these have certain common characteristics, such as similar constituents, concentrations of constituents, disposal techniques, flow ranges, and they require the same or similar treatment standards. The State Water Resources Control Board issued Order WQ 2014-0153-DWQ, *General Waste Discharge Requirements for Small Domestic Wastewater Treatment Systems* (General Order) to regulate these types of discharges consistently throughout the State. Enrollment of the All Seasons RV Park OWTS in the General Order will provide a level of water quality protection equal to that provided in Order No. 94-05, as amended by Addendum No. 1.
4. The discharge from the All Seasons RV Park OWTS is eligible for enrollment in the General Order based on information provided in monitoring reports and obtained during a compliance inspection conducted by San Diego Water Board

staff on March 2, 2020. As such, the discharge from the All Seasons RV Park is more appropriately regulated under the General Order than individual WDRs.

5. The San Diego Water Board will issue a Notice of Applicability (NOA) to the All Seasons RV Park OWTS for enrollment in the General Order prior to the board meeting on October 14, 2020. The NOA's effective date of enrollment in the General Order coincides with the adoption date of this rescission Order.
6. Adoption of Order No. R9-2020-0178 is not subject to the California Environmental Quality Act (CEQA, Public Resources Code, section 210000 et seq.). Pursuant to California Code of Regulations, title 14, (title 14) sections 15060(c)(2) and 15061(b)(3) the action to rescind Order 94-05, as amended by Addendum No. 1, will not have potentially significant adverse effects on the environment because the discharges that were regulated by Order No. 94-05, as amended by Addendum No. 1, are now regulated under the General Order. In addition, adoption of Order No. R9-2020-0178 is exempt from CEQA pursuant to categorical exemptions at title 14, section 15301 (ongoing or existing projects).

The State Water Resources Control Board considered the environmental impacts associated with the adoption of the General Order, and prepared an Initial Study in accordance with title 14, section 15063. Analysis in the Initial Study and early consultation with responsible and trustee agencies did not identify any significant impacts on the environment. Therefore, a Negative Declaration was prepared. The State Water Resources Control Board adopted the Negative Declaration on September 23, 2014, through Resolution No. 2014-0054, *California Environmental Quality Act, Negative Declaration, General Waste Discharge Requirements for Small Domestic Wastewater Treatment Systems*.

7. The San Diego Water Board heard and considered all comments pertaining to the adoption of Order No. R9-2020-0178 in a public meeting.

IT IS HEREBY ORDERED that Order No. R9-2020-0178 is adopted.

I, David W. Gibson, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, San Diego Region, on October 14, 2020.

David W. Gibson, Executive Officer
