Subject: Fwd: Draft Tentative Order No. R9-2009-0094 NPDES Permit No. CAG679001

More comments, this was sent to David Barker yesterday

>>> "Ralph McIntosh" <ralphmcintosh@rmwd.org> 12/8/09 2:52 PM >>>

Mr. Gibson/Mr. Barker,

I am sending this short email to request delaying adoption of the above referenced Draft Tentative Order so that Board staff and the San Diego County Water Authorities TAC can continue to work towards some acceptable solutions in the Order.

The previous Regional Board process that was in place was productive and now it appears to have been short circuited for one reason or another.

I would like to comment further but since today is the end of the comment period, and we in the water industry are just finding this out, I as well as many of my fellow General Managers have not had time to respond to the proposed changes.

So I urge you to take all of the comments you receive from all of the other San Diego County Water Agency Managers into consideration before proceeding further.

Thank You!

Ralph McIntosh
General Manager
Ramona Municipal Water District
