## NOTICE OF FILING AND NOTICE OF PUBLIC HEARING

CALIFORNIA REGIONAL  
WATER QUALITY  
CONTROL BOARD  
SAN DIEGO REGION  
RECOMMENDATIONS  
FOR CHANGES TO  
THE CLEAN WATER ACT  
SECTIONS 303(d) AND  
303(e)  
INTEGRATED REPORT  
FOR THE SAN DIEGO  
REGION  
PUBLIC HEARING  
1:00 p.m.  
Wednesday, October 14,  
2009  
San Diego Water Board  
Hearing Room  
1177 Sky Park Court,  
Suite 100  
San Diego, California  
92134

The California Regional  
Water Quality Control  
Board San Diego Region  
(San Diego Water Board)  
is considering pending  
recommendations for  
changes to both the Clean  
Water Act (CWA) Section  
303(d) list of impaired  
waterbodies and CWA  
Section 303(e) report on  
the water quality of  
waterbodies within the  
San Diego Region. Clean  
Water Act Section 303(d)  
requires each state to  
report annually to the  
United States  
Environmental Protection  
Agency (U.S. EPA) on the  
water quality condition of  
its waters. CWA Section  
303(d) requires each State  
to develop a list, and  
submit biennially to the  
U.S. EPA a list of  
waterbodies or segments  
that are "impaired or  
threatened" which either  
do not meet, or are not  
expected to meet, water  
quality standards. In  
addition, waterbodies on  
the 303(d) list can be  
deleted when evidence  
proves that the  
impairment does not  
exist and the waterbody is  
meeting water quality  
standards, or that the  
impairment listing is  
flawed. Impaired  
waterbodies or segments  
on the 303(d) list must be  
addressed through the  
development of TMDLs or  
other means as  
described in the State  
Water Quality Control  
Policy of Addressing  
Impaired Waters in  
Conformance with U.S.  
EPA guidance (U.S. EPA,  
2001). The Water Boards  
are preparing a single  
statewide integrated  
Report that meets the  
reporting requirements of  
CWA sections 303(d) and  
303(e).  
These changes are not  
subject to the California  
Environmental Quality  
Act (CEQA). The San  
Diego Water Board wishes  
to obtain public input on  
this matter.

**PUBLIC HEARING**  
The San Diego Water  
Board will hold a public  
hearing on October 14,  
2009, at a meeting  
beginning at 1:00 p.m. The

may deliberate and  
consider action on the  
recommendations for  
changes to the CWA at the  
close of the public  
hearing.

**REQUEST FOR PUBLIC  
INPUT**  
Interested persons are  
invited to attend the  
hearing to present

In addition, waterbodies on the 303(d) list can be delisted when evidence establishes that the impairment(s) does not exist and the waterbody is meeting water quality standards, or that the impairment listing is flawed. Impaired waterbodies or segments on the 303(d) list must be addressed through the development of TMDLs or by other means as described in the State's Water Quality Control Policy for Addressing Impaired Waters. Upon adoption, the Integrated Report will be submitted to the State Water Resources Control Board. These changes are not subject to the California Environmental Quality Act (CEQA).

In addition, waterbodies on the 303(d) list can be delisted when evidence proves that the impairment(s) does not exist and the waterbody is meeting water quality standards, or that the impairment listing is flawed. Impaired waterbodies or segments on the 303(d) list must be addressed through the development of TMDLs or by other means as described in the State's Water Quality Control Policy of Addressing Impaired Waters. In conformance with U. S. EPA guidance (U. S. EPA, 2005), the Water Boards are preparing a single state-wide Integrated Report that meets the reporting requirements of CWA

sections 303(d) and 305(b).

These changes are not subject to the California Environmental Quality Act (CEQA). The San Diego Water Board wishes to obtain public input on this matter.

The California Regional Water Quality Control Board, San Diego Region (San Diego Water Board) is considering providing recommendations for changes to both the Clean Water Act (CWA) Section 303(d) list of impaired waterbodies, and CWA Section 305(b) report on the water quality of waterbodies within the San Diego Region. Clean Water Act Section 305(b) requires each state to report biennially to the United States Environmental Protection Agency (U. S. EPA) on the water quality condition of its waters. CWA Section 303(d) requires each State to develop, update, and submit biennially to the U. S. EPA a list of waterbodies or segments that are "impaired or threatened" which either do not meet, or not expected to meet, water quality standards. In addition, waterbodies on the 303(d) list can be delisted when evidence proves that the impairment(s) does not exist and the waterbody is meeting water quality standards, or that the impairment listing is flawed. Impaired waterbodies or segments on the 303(d) list must be addressed through the development of TMDLs or by other means as described in the State's Water Quality Control Policy of Addressing Impaired Waters.
