Dear Mr. Halvax:

SUBJECT: CONSIDERATION OF ADOPTION OF TENTATIVE ORDER NO. R9-2010-0092, AN ORDER MODIFYING ORDER NO. R9-2009-0080 NPDES NO. CA0109151, BAE SYSTEMS SAN DIEGO SHIP REPAIR INC. DISCHARGE TO SAN DIEGO BAY

The California Regional Water Quality Control Board, San Diego Region (San Diego Water Board) intends to consider adoption of the subject tentative order at a San Diego Water Board meeting on June 9, 2010. If adopted, the tentative Order would remove discharge requirements for the drydock Dilligence/AFDL from BAE's NPDES Permit Order No. R9-2009-0080. Consequently, no shipbuilding/repair work, and thus no waste discharges resulting from these activities, would be authorized at the drydock unless NPDES permit coverage was obtained by another responsible party prior to discharge. It is our understanding that the drydock has been sold to Knight and Carver. Adoption of the subject tentative Order would not allow Knight and Carver to begin using the drydock for ship repair/construction work. Knight and Carver's NPDES permit will need to be modified to add a new discharge point for the drydock, and adding a new discharge point does not qualify as a minor modification so additional public notice procedures must be followed. Based on the current NPDES permit workload, the earliest estimate for bringing this action before the San Diego Water Board would be in the August – September time frame.

The subject tentative Order will be presented to the San Diego Water Board on Wednesday, **June 9, 2010**. The meeting will begin promptly at 9:00 AM and will be held at the following location:
