SUPPLEMENTAL
EXECUTIVE OFFICER SUMMARY REPORT
November 13, 2012

ITEM: 8

SUBJECT: Waste Discharge Requirements Addendum: Modification of Waste Discharge Requirements and Water Recycling Requirements for the Production and Purveyance of Recycled Water for Padre Dam Municipal Water District, San Diego County (Tentative Addendum No. 1 to Order No. 97-49) (Fisayo Osibodu).

PURPOSE: To consider adopting Tentative Addendum No. 1 to Order No. 97-49 (tentative Addendum)

RECOMMENDATION: Adoption of Tentative Addendum No. 1 to Order No. 97-49 is recommended.

DISCUSSION: The San Diego Water Board received written comments on the tentative Addendum from the California Department of Public Health (Supporting Document No. 6) and from Padre Dam Municipal Water District (Supporting Document No. 7). Written responses to comments (Supporting Document No. 8) have been included in this supplemental agenda package and were sent to the interested parties via email on November 7, 2012. Changes made to the tentative Addendum as a result of comments received are shown in underline/strikeout format (Supporting Document No. 9). A final revised copy of the tentative Addendum is included as Supporting Document No. 10.

All of the requested revisions were accepted with one exception. Padre Dam Municipal Water District requested that the requirement that it prepare the salt and nutrient management plan for the Santee groundwater basin be struck from the tentative Addendum. The San Diego Water Board is consistently including requirements in new and revised recycled water permits for the recycled water purveyors to develop salt and nutrient management plans. Including this requirement will provide incentives for water purveyors to develop salt and nutrient management plans by

the due date in 2014, as required by the Recycled Water Policy.

Changes have also been made to Section VI. of the Information Sheet to reflect changes made to the tentative Addendum. A revised copy of the Information Sheet showing changes in underline/strikeout format is included as Supporting Document No. 11.
