**Re: Hanson Aggregates Pacific Southwest, Inc. Waste Discharge Facility ID:  
9 000000687 Carroll Canyon**

Dear Mr. Osibodu:

Hanson Aggregates Pacific Southwest, Inc. (Hanson) has ceased all Mining, Sand and Gravel Processing, and Ready Mix Concrete Production at the Carroll Canyon facility located at 9255 Camino Santa Fe in San Diego. The property discontinued mining activities in October 2016 and processed the remaining stockpiles before the end of 2016. Due to the cost involved to transport material to the property to produce ready mix concrete that operation was also terminated at the end of 2016. On January 3, 2017 Hanson surrendered all air Permits to Operate associated with the Sand and Gravel Processing and the Ready Mix Concrete Production with the Air Pollution Control District San Diego County. Concrete barriers have been placed at the entrance of the Mining and Sand and Gravel plant and the chain link fence is lock to the entrance and exit of the Ready Mix Concrete plant. Please see the photos included.

Should you have any questions or require additional information, please contact me at (858) 715-5667.

Respectfully yours,

A handwritten signature in blue ink, appearing to read "A. Lund".
