

# Modern Monitoring Update

**February 12, 2019**

# Overview

- Inter-regional effort (R1, R2, R6, R9)
- Pilot-test modern monitoring tools
- 3- to 5-year timeframe

# Goals

- Use modern tech to support mission
- Increase staff efficiency
- Scale up for State-wide implementation

# Project Progress

| Action                      | Method                       | Status                        |
|-----------------------------|------------------------------|-------------------------------|
| Pilot tests, funding, etc.  | Inter-regional collaboration | Ongoing                       |
| Research collaboration      | SDS, UCSD outreach           | In progress                   |
| Data <a href="#">models</a> | Satellite data               | Proposal phase; NASA meeting  |
| R9 pilot project            | CCTVs                        | Grading start est. April 2019 |
