

Figure 1

A map showing the locations of United States Section of the International Boundary and Water Commission's sewage infrastructure (i.e., the South Bay International Wastewater Treatment Plant, Junction Box 1 and 2, and the Stewart's Drain canyon collector and diversion berm), Mexico's sewage infrastructure (i.e., Pump Station PB-1A and PB-1B), and the relevant surface waters (i.e., Stewart's Drain drainage channel and Tijuana River).
