

Notice of Open House Public Meeting - Remote Training Site Warner Springs Private Drinking Water Well Sampling

On January 12, 2026 between 5:00 pm and 7:00 pm the Department of Navy is hosting an Open House to provide information to the public about the Navy's offer to sample private drinking water wells near the Remote Training Site in Warner Springs. The Open House will be held at the following location:

CAL Fire Station #52,
31049 CA-79,
Warner Springs, CA 92086

The sampling is for certain per- and polyfluoroalkyl substances (PFAS), which may be present in these private drinking water wells due to the use of PFAS-containing materials on base.

The Department of the Navy is working in partnership with the San Diego Water Board, the County of San Diego Public Health services, and the California Office of Environmental Health Hazard Assessment.
