Dear Mr. Halvax:

**SUBJECT: Action on Request for Amendment to Clean Water Act Section 401  
Water Quality Certification for BAE Systems Pier 3 Fender Pile  
Backing Project, 08C-097**

The California Regional Water Quality Control Board, San Diego Region received your request to amend Water Quality Certification 08C-097 on August 30, 2010. The proposed amendment is to change the project description to include installation of two additional piles to Pier 3 at your facility. After review of your submittal it has been determined that this change will not significantly impact water quality as certified in the Water Quality Certification 08C-097. Therefore the project description is updated accordingly:

**PROJECT DESCRIPTION:**

The project is to install 18 fender piles at 9 locations on Pier 3 to support 9 steel backing plates and fender cushions on Pier 3 at the BAE Systems ship repair facility in San Diego Bay, San Diego, CA.

In the subject line of any response, please include the requested "In reply refer to:" information located in the heading of this letter. For questions pertaining to the subject matter, please contact Jody Ebsen at 858-636-3146 or [jebsen@waterboards.ca.gov](mailto:jebsen@waterboards.ca.gov).

Respectfully,

DAVID W. GIBSON  
Executive Officer
