Dear Mr. Atzmilller:

Subject: SECOND NOTICE - Requirement to Enroll Under Industrial Storm Water General Permit, VAS Engineering, Inc.

Pursuant to California Water Code (CWC) Section 13399.30, this letter serves as your second and final notice that VAS Engineering, Inc. is required to enroll under Order No. 97-03-DWQ, National Pollutant Discharge Elimination System (NPDES) General Permit No. CAS000001, *Waste Discharge Requirements (WDRs) For Discharges of Storm Water Associated with Industrial Activities Excluding Construction Activities* (Industrial Storm Water Permit). By letter dated September 6, 2011, you were notified by the California Regional Water Quality Control Board, San Diego Region (San Diego Water Board) that coverage under the Industrial Storm Water Permit for your facility located at 4750 Viewridge Avenue in San Diego is conditional with outdoor exposure (SIC 3572). You were also notified by the City of San Diego and San Diego Water Board inspectors, during the August 25, 2011 inspection of your facility, of the requirement to enroll under the Industrial Storm Water Permit.

For more information about the Industrial Storm Water Permitting Program, please see our website at:

http://www.waterboards.ca.gov/water_issues/programs/stormwater/industrial.shtml.

A copy of the Industrial Storm Water General Permit, including the Notice of Intent (NOI) was included in your first notice from the San Diego Water Board, dated September 6, 2011. Within thirty days, please submit a completed NOI, a site map of the facility, and the application fee of \$1008 made payable to "State Water Resources Control Board." All materials must be sent to the following address:
