TO: David T. Barker, P.E.
Craig L. Carlisle, Senior Engineering Geologist
Shipyard Sediment Cleanup Team
SAN DIEGO REGIONAL WATER QUALITY CONTROL BOARD

FROM: 
David A. King, Esq.
Presiding Officer
SAN DIEGO REGIONAL WATER QUALITY CONTROL BOARD

DATE: February 28, 2008

SUBJECT: AVAILABILITY OF SHIPYARD SEDIMENT SITE DOCUMENTS

The February 28, 2008 response from the Shipyard Sediment Cleanup Team did not satisfy the request set forth in my February 26, 2008 directive.

(1) Please report on whether it is feasible to make available in the Regional Board offices a record for the Tentative Cleanup and Abatement Order (CAO) that is "partially in an indexed electronic form and partially on paper" such that Phase III of the First Amended Order of Proceedings can be commenced.

(2) If a partially electronic and partially paper record can be made available, by what date can this be accomplished?

(3) Finally, is all of the directly relevant technical information related to the Tentative CAO contained within the 39 disks prepared by D-M which have already been released?

A written response from the Cleanup Team is expected by close of business February 29. This is not a request for a recommendation from the Cleanup Team.
