The California Regional Water Quality Control Board, San Francisco Bay Region (hereinafter the Board), finds that:

1. **Regional Board Orders:** The Board adopted Site Cleanup Requirements for this site on April 15, 1998 (Order No. 98-028). On August 20, 1999 the Board adopted amended Site Cleanup Requirements (Order No. 99-064) adding Texaco as a discharger. On November 28, 2001 the Board adopted amended Site Cleanup Requirements (Order No. 01-137) setting forth a series of revised tasks and time schedules for the dischargers.

2. **Reason for Amendment:** Order No. 01-137 specifies a task and time schedule for submitting technical reports to the Board. These reports are specific to the investigation and remediation of discharges of petroleum hydrocarbons at the site. While significant progress has been made towards completing tasks in the Order, delays have occurred due to the complexity of the site.

This amended Order, acknowledges delays in complying with tasks in the existing Site Cleanup Requirements and sets forth a revised schedule for completion of the existing
tasks. This revised schedule will allow the dischargers time to work together, consider property owner and development needs, and to allow for timely submittals to the Board.

3. **CEQA**: This action is an amendment of an order to enforce the laws and regulations administered by the Board. As such, this action is categorically exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to Section 15321 of the Resources Agency Guidelines.

4. **Notification**: The Board has notified the dischargers and all interested agencies and persons of its intent under California Water Code Section 13304 to amend Site Cleanup Requirements and has provided them with an opportunity to submit their written comments.

5. **Public Hearing**: The Board, at a public meeting, heard and considered all comments pertaining to this discharge.

**IT IS HEREBY ORDERED**, pursuant to Section 13304 of the California Water Code, that Order No. 01-137 shall be amended as follows:

3. **For Other Areas of Site:** 150 days after Executive Officer’s approval of Remedial Investigation as set forth in Task C.3. above. The Final Remedial Action Plan(s) shall include a schedule for implementation and completion of remedial activities acceptable to the Executive Officer; provided however, that for the Other Areas of the Site, the proposed final Remedial Action Plan(s) shall include an implementation schedule for remedial action that ensures its completion by no later than December 31, 2004.

I, Loretta K. Barsamian, Executive Officer, do hereby certify that the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, San Francisco Bay Region, on February 19, 2003.
