

California Regional Water Quality Control Board
San Francisco Bay Region
1515 Clay Street, Suite 1400, Oakland, CA 94612
(510) 622-2300

**NOTICE OF APPLICATION AND PUBLIC HEARING
APPLICATION FOR DISCHARGE PERMIT AND ADOPTION OF PERMIT
City of Millbrae Wastewater Treatment Plant
400 East Millbrae Avenue
Millbrae, CA 94030**

The above discharger has filed an application for reissuance of a permit under the National Pollutant Discharge Elimination System. The San Francisco Bay Regional Water Quality Control Board's (Regional Water Board's) staff has prepared a tentative permit for this discharger, containing limitations and provisions, in accordance with the Federal Clean Water Act and the California Porter-Cologne Water Quality Control Act.

The discharger owns and operates a sanitary sewage treatment plant and sewage conveyance system serving the City of Millbrae in San Mateo County. The treatment system provides secondary treatment of domestic wastewater from the service area. Treated wastewater is discharged to the North Bayside System Unit (NBSU) force main, which conveys it to the NBSU outfall, located in San Francisco Bay approximately 5,300 feet northeast of Point San Bruno at a depth of approximately 20 feet.

The Regional Water Board intends to consider adopting the tentative permit during a meeting to commence at the time and location as follows:

Time and Date: 9:00 a.m., August 13, 2008
Location: Auditorium, Elihu Harris State Building
1515 Clay Street, Oakland, California

Persons wishing to file written comments on or objections to the tentative permit or other aspects of this matter must do so no later than 5:00 p.m. on Friday, July 18, 2008, so that such comments may be considered. No written comments will be accepted or responded to in writing after that date. Interested persons are invited to attend and express their views at the public hearing on this matter. The Regional Water Board will hear oral testimony, but will not accept written comments after the deadline noted above.

Pursuant to section 2050(c) of Title 23 of the California Code of Regulations, any party that challenges the Regional Water Board's action on this matter through a petition to the State Water Resources Control Board under Water Code section 13320 will be limited to raising only those substantive issues or objections that were raised before the Regional Water Board at the public hearing or in timely submitted written correspondence delivered to the Regional Water Board.

The application, tentative permit, fact sheet, comments received, and related documents may be inspected and copied at the Regional Water Board office. The tentative permit and fact sheet are also available at www.waterboards.ca.gov/sanfranciscobay. A response to comments will be posted on that website one week prior to the hearing. Please contact John H. Madigan at (510) 622-2405, or by e-mail at jmadigan@waterboards.ca.gov, if you have any questions on this matter.

June 20, 2008

DATED

Lila Tang, NPDES Division Chief
