

STATE OF CALIFORNIA  
CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
SAN FRANCISCO BAY REGION

STAFF SUMMARY REPORT (Max Shahbazian)  
MEETING DATE: November 1, 2007

ITEM: 5.A

SUBJECT: **Chevron Products Company, Equilon Enterprises, LLC, Oakland Fuel Facilities Corporation, PS Trading, Inc., Shell Oil Company, Swissport Fueling, Inc., SFPP, L.P., an operating partner of Kinder Morgan Energy Partners L.P., and Port of Oakland, for the property located at 1 Edward White Way, also known as South Field Tank Farm, Oakland International Airport, Oakland, Alameda County – Adoption of Revised Site Cleanup Requirements**

CHRONOLOGY: November 1999 - Site Cleanup Requirements adopted  
January 2002 - Site Cleanup Requirements revised

DISCUSSION: We received more comments than expected on this item so we are removing it from the Board agenda.

The closure of the comment period for the tentative order for this item was set for October 19, so as to coincide with the previously scheduled November 14 Board meeting date. When that Board meeting was cancelled, we thought we could have this item ready for the Board's consideration at the newly scheduled November 1 Board meeting even with a late-closing comment period because, in circulating an administrative draft of the tentative order prior to the formal comment period, we did not receive significant comments.

However, upon the close of the formal comment period on October 19, we were surprised by the amount of comments we received. We will need time past the November 1 Board meeting to resolve these comments. Therefore, we will work with the dischargers during the next few weeks to resolve their comments, and anticipate issuing this order administratively later in November.

RECOMMEN-  
DATION: No action required
