

STATE OF CALIFORNIA
REGIONAL WATER QUALITY CONTROL BOARD
SAN FRANCISCO BAY REGION

STAFF SUMMARY REPORT (Mark Johnson)
MEETING DATE: March 12, 2008

ITEM: 10. B

SUBJECT: **Union Pacific Railroad Company, for the property located at former Southern Pacific Railroad Spur, Ravenswood Industrial Area, East Palo Alto, San Mateo County** – Adoption of Final Site Cleanup Requirements

CHRONOLOGY: The Board has not previously considered this item

DISCUSSION: The Tentative Order would approve a cleanup plan for this arsenic-impacted site, set cleanup standards, and set a timetable for implementing the cleanup plan. Union Pacific has requested an additional 30 days to prepare and submit comments on the Tentative Order, primarily due to changes in its staff. The additional time should not delay soil cleanup already planned by Union Pacific.

**RECOMMEN-
DATION:** Continue to April Board Meeting

File No.: 41S0153 (MEJ)
