October 18, 2012

Mr. Robert Schlipf
San Francisco Bay Regional Water Quality Control Board
1515 Clay St., Suite 1400
Oakland, CA 94612

Subject: Tentative Order for Municipal and Industrial Wastewater Discharge of Mercury and PCBs to San Francisco Bay.

Dear Mr. Schlipf:

GenOn Delta, LLC wishes to submit the following comments regarding the subject Tentative Order. GenOn Delta, LLC owns the Pittsburg Generating Station in Pittsburg, CA as well as the Potrero Generating Station in San Francisco, which is now retired.

There are several references in the Tentative Order to GenOn Delta, LLC former names of Mirant and Southern Energy, as well as to the Potrero facility. Tentative Order Section IV. A. 4, page F-19 correctly notes that the Potrero Power Plant discharges have ceased and the NPDES permit has been rescinded.

Specific sections of the Tentative Order that should reflect the correct name of GenOn Delta, LLC and remove references to the Potrero facility are:

Tables 6A, F-3, F-9, F-12; Attachment C

Thank you for this opportunity to comment on the Tentative Order. If there are any questions, please contact me at robert.lawhn@genon.com.

Sincerely,

Robert W. Lawhn
Environmental Manager
