Kent Aue Engineering Geologist California Water Quality Control Board San Francisco Region 1515 Clay Street, Suite 1400 Oakland, CA 94612

Re:

Comments to Tentative Order of San Francisco Bay Regional Water Quality Control Board for Adoption of Site Cleanup Regulations for the property located at 622/630 Jackson Street, Fairfield, CA, Solano County

Dear Mr. Aue:

We write with comments to the Regional Water Board's April 13, 2012 tentative order. 1

A. Neither PCE nor PCE derivative compounds were ever discharged from 622-630 Jackson Street.²

The tentative order's position that "it does not appear that PCE was used and discharged at the Site" is undisputed. None of the retail establishment operating at the property discharged PCE. Solano Printers and Fairfield Printing Company both used alcohol based solvents and did not discharge PCE. Singh's Imported Car Service sold cars—it did not repair them—and did not discharge PCE. Gillespie Cleaners did not discharge PCE because if solvents were used during the time it operated at the site, they were likely Stoddard Solvents.

We request that the Regional Water Board clarify its order regarding PCE or PCE derivative compounds, which could not have been discharged from businesses operating at 622-630 Jackson Street. There is no evidence from testing which has been conducted or site history to conclude that PCE or its derivatives were discharged there.

We preserve for appeal all points raised in this letter, our February 17, 2012 site history, November 28, 2011 objection letter, November 17, 2011 presentation, and the comments and cover letter submitted on October 26, 2011.

The Regional Water Board issued a requirement for technical report on May 11, 2012, and requested questions or comments by May 16, 2012, three business days later. Given the interplay of facts between the tentative order and requirement for technical report, and limited time period to prepare substantive comments to the request, we intend for our objections to the tentative order to apply equally to the request for technical report. Should the Regional Water Board not sustain our objections at the July 11, 2012 hearing, we reserve the right to object to the requirement for a technical report before its due date of August 31, 2012.

- B. The Regional Water Board should not hold Tegtmeier Associates, Inc. responsible for any alleged discharge of Stoddard Solvent by Gillespie Cleaners in 1945 and 1946.
 - (i) The record of Gillespie Cleaners' operations on Jackson Street.

Robert Dittmer testified at his deposition that Gillespie Cleaners operated on Jackson Street from at least 1940 or 1941 to at least as late as 1943. Deposition of Robert Dittmer at 155:23-156:11³ Gillespie Cleaners is referenced in The Solano Republican, on microfiche in the downtown Fairfield library. Gillespie Cleaners advertised its operations on Jackson Street in the early and mid-1940s. It was announced in the newspaper that Gillespie Cleaners was moving from Jackson Street to 1250 Texas Street in January, 1946.

(ii) Moore & Tegtmeier and Tegtmeier Associates, Inc.'s operations.

Moore & Tegtmeier purchased 622-630 Jackson Street on or about February 5, 1945. Subsequently, the partnership was dissolved. Tegtmeier Associates, Inc. was incorporated in 1971. In March, 1972, our client John Tegtmeier became one of three shareholders in Tegtmeier Associates, Inc. Tegtmeier Associates, Inc. sold 622-630 Jackson Street in 1999. As the sole living shareholder of Tegtmeier Associates, Inc., our 74 year old client operates a company that controls two small properties leased to movie theatres.

- (iii) The evidence linking Tegtmeier Associates, Inc. to the alleged discharge of Stoddard Solvent by Gillespie Cleaners in 1945 and 1946 does not justify a clean up order by the Regional Water Board.
 - (a) It is unclear whether Gillespie Cleaners' operations at 622-630 Jackson Street overlapped with Moore & Tegtmeier's ownership of the property.

It has not been proven that Gillespie Cleaners' operations at 622-630 Jackson Street overlapped with Moore & Tegtmeier's ownership of 622-630 Jackson Street.

Robert Dittmer testified that Gillespie Cleaners operated on Jackson Street from 1940 or 1941 until at least 1943, but could not confirm that it operated there after that date. Deposition of Robert Dittmer at 155:23-156:11. The Solano Republican contained advertisements that Gillespie Cleaners announced in January, 1946 that it was moving its operations. Based on this record, it is unclear if Gillespie Cleaners was actually doing business at 622-630 Jackson Street when Moore & Tegtmeier bought the property because it has been reported that the premises were destroyed by a fire during this time period. Our research indicates that Gillespie Cleaners moved from Jackson Street to 1250 Texas Street because its operations burned to the ground.⁴

³ Relevant excerpts from the deposition of Robert Dittmer are attached as Exhibit A.

⁴ See Exhibit 20 to the Deposition of Robert Dittmer at 2 (Attached as Exhibit B) ("1250 Texas Street. Built by Bernard Gillespie for his dry cleaning and fur storage business after fire had destroyed his building on Jackson Street").

(b) Assuming arguendo that Gillespie Cleaners operated at 622-630 Jackson Street during Moore & Tegtmeier's ownership of the property, there is no evidence that Gillespie Cleaners discharged Stoddard Solvent in 1945 or 1946.

Assuming that Moore & Tegtmeier's ownership of the site overlapped with Gillespie Cleaners' operations on the site, there is no evidence that Gillespie Cleaners ever used or discharged Stoddard Solvent into the soil or groundwater. Dry cleaning machines during this time were vented. Their fumes and drying exhaust were expelled into the atmosphere in the same way as modern tumble drier exhaust. The cleaning solvent was lost in the atmosphere, not the ground.

C. Tegtmeier Associates, Inc. does not have the financial resources to undertake any work ordered by the Regional Water Board.

Tegtmeier Associates, Inc. does not have insurance to pay for any work ordered by the Regional Water Board.

Attempting to comply with clean up ordered by the Regional Water Board will likely bankrupt Tegtmeier Associates, Inc. before the work can be completed. Tegtmeier Associates, Inc. will incur no financial benefit to counterbalance the expenditures that would be necessary to comply with the Regional Water Board's proposed order.

D. Conclusion

In the absence of proof that Gillespie Cleaners operated at 622-630 Jackson Street during the period that Moore & Tegtmeier owned the property there should be no clean up ordered against this historical property owner. As previously mentioned, there is no evidence that Gillespie Cleaners performed dry cleaning operations on site using Stoddard Solvent. Laundries, which were far more common during the World War II era did not use solvents to wash clothes. Unless and until it can be established that Gillespie Cleaners did not burn down and was operating on site when Moore & Tegtmeier owned the property and that Stoddard Solvents were used in dry cleaning operations there, it would be inequitable for the Regional Water Board to conclude that Tegtmeier Associates, Inc. should be held responsible for the clean up of Stoddard Solvent in the soil or groundwater.

We request based on the investigation to date, that the Regional Water Board decline to issue a clean up order pertaining to the present or former owners of 622-630 Jackson Street.

Respectfully submitted,

Christopher A. Nedeau

I don't believe you testified that you are aware that they existed on Jackson Street any time after that; is that correct? A. They were on Jackson Street after '43. Q. But you don't know how long, is that right? A. I don't know what year they left, yes, correct. Q. So sometime, a few years after that, you believe they left; is that right? MR. GRAHAM: Vague and ambiguous, calls for speculation. Go ahead. A. At some point they left, obviously. At what point they left, I don't know. BY MR. NICKOVICH: Q. All right, and when you took your clothes to be cleaned at Gillespie Cleaners when they were located on Texas Street, did you ever see them being cleaned, the clothes themselves? Do you know if they even did use any chemicals to clean the clothes? A. No. Q. Do you have any knowledge about how they went about cleaning clothes at Gillespie Cleaners when it was located on Jackson Street? A. No. Q. Can you turn please to Exhibit 19. Can you please turn to the second page where earlier this morning you were directed to an advertisement that states "Gillespie Cleaners and Dyers"; do you see that? A. Yeah. Q. And there's no numerical address on that advertisement; is that correct? MR. GRAHAM: Objection, the document speaks for itself. A. It says "Jackson Street." BY MR. NICKOVICH:

TEXAS STREET, PARSENT OF CHURCOS

EXHIBIT Son Dithmed 20 3/8/12 and was installed on October 22, 1925. The aights were first turned on October 23, 1925.

the Crowley family. The beautiful interior the Crowley family. The beautiful interior circular staircase was stabilized and an office, with its own entrance, was added to the east end of the building for Assemblyman Ernest Crowley. Although blind, Mr. Crowley served at 25 years in the State Assembly. His wife, lige Georgia Crowley, served in the Justice court of Solano County for 40 years.

1026 and 1046 Texas Street. During the 1920's many bungalows were built using the simple

oblong plan with two or three steps leading up to an inset porch. To alter the appearance of the homes, a number of different roof lines were used. 1026 was the home of Lewis Morrill who was the County Clerk. The Corcoran family lived at 1046. Mr. Corcoran was the County Treasurer.

1100 Texas Street. For many years the only home on this block was that of J.B. Lemon, one of Fairfield's earliest residents. In 1928 the entire block was cleared for the development of the Deluxe Motel and Cafe. The John Lemon home was moved to Union Avenue.

1250 Texas Street. Built by Bernard Gillespie for his dry cleaning and fur storage business after fire had destroyed his building on Jackson Street. The recessed entrance of this streamlined modern building is flanked with curved glass brick sidelights, a new building technique in the 1930's and 40's.

621 Missouri. Home of E.N. Eager, the County Surveyor, and his daughter, Maybelle who was
