Re: *Comments on Tentative Cleanup and Abatement Order for the Las Colinas Road Site in Livermore, Alameda County.*

Yan,

Zone 7 Water Agency (Zone 7) has reviewed the draft Tentative Order in the context of Zone 7's mission to provide water supply, flood protection, and groundwater and stream management within the Livermore-Amador Valley. We have two comments for your consideration:

1. Include a measure in the Cleanup and Abatement Order to test and remediate, as necessary, any contaminated soil that has been placed as fill in the wetland.
2. We understand the objective for requiring the party to install fencing so as to avoid additional encroachment into the wetland and prevent any soil erosion from entering the wetland. However, the property owner should take care to avoid impeding stormwater flow along Arroyo Seco, especially should a debris jam form along the fence.

We appreciate the opportunity to comment on this project. If you have any questions on this letter, please feel free to contact me at (925) 454-5005 or erank@zone7water.com.

Sincerely,

Elke Rank
