Subject:48S0046 Benicia Industrial Park SCR - Board hearing continued

Attachments: Revised September 2019 agenda- finaldocx.pdf (found on agenda webpage)

To all parties and interested persons:

At the request of Champion Laboratories, Inc., for a continuance, the Regional Water Board will no longer be considering the tentative site cleanup requirements (Tentative Order) for the subject site at its meeting on September 11, 2019. The item has been pulled from the September agenda (see attached). The Regional Water Board will consider the Tentative Order at its next meeting on October 9, 2019. Staff will provide more information on the meeting in the near future. An agenda for the October meeting will be published on the Regional Water Board's website (<https://www.waterboards.ca.gov/sanfranciscobay/>) on September 25, 2019.

If you have any questions please call or write me, and have a good day.

Bill A. Cook III, PG 7802, CEG 2534

Engineering Geologist

San Francisco Bay Regional Water Quality Control Board
