

Table 4-15: Transition Volume Targets for In-Bay Disposal of Dredged Materials

Year	Target Volume^{a,b}
2001-2003	2.8 million cubic yards
2004-2006	2.41 million cubic yards
2007-2009	2.03 million cubic yards
2010-2012	1.73 million cubic yards
After 2012	1.25 million cubic yards

NOTES:

^{a.} Three-year average of the total in-Bay disposal volume

^{b.} These volumes do not include the allowable contingency volume of 250,000 cy per year
