

Table 7.3.3.2: Mean Annual Sediment Delivery to Lagunitas Creek upstream of Devils Gulch (drainage area = 89 km²) during water years 1983 through 2008

Source	Estimated Mean Annual Delivery Rate (metric tons/yr)
Landslides, Gullies, and Soil Creep	2,600
Roads	3,600
Tributary Channels: Channel Incision and Bank Erosion	5,000
San Geronimo Creek and Lagunitas Creek: Channel Incision and Bank Erosion	2,900
Urban stormwater and wastewater discharges	100
TOTAL	14,200
