

**Table 7.3.3.3: Mean Annual Sediment Delivery to Lagunitas Creek upstream of Olema Creek (drainage area = 213 km<sup>2</sup>) during water years 1983 through 2008**

<b>Source</b>	<b>Estimated Mean Annual Delivery Rate (metric tons/yr)</b>
Landslides, Gullies, and Soil Creep	5,600
Roads	4,000
Tributary Channels: Channel Incision and Bank Erosion	8,500
San Geronimo Creek and Lagunitas Creek: Channel Incision and Bank Erosion	4,000
Urban stormwater, wastewater, and other point source discharges	100
<b>TOTAL</b>	<b>22,200</b>
