

Table 7.4.3-9. Phase 1 Implementation Actions and Schedule for Municipal Stormwater Runoff

Phase 1 Implementation Actions	Implementing Parties	Schedule
Comply with bacteria pollution prevention requirements in NPDES permit No. CAS 612008	City of Half Moon Bay and San Mateo County	Ongoing
Submit an Initial Report to the Water Board describing actions to prevent or reduce discharges of bacteria to storm sewer systems. The report shall also include timeline and/or frequency of implementation activities for all the actions listed below, as appropriate.	City of Half Moon Bay and San Mateo County	Within three months of the effective date of the TMDL
<p>Effectively prohibit and prevent potential illicit discharges into the storm sewer system from:</p> <p>Illicit sanitary sewer connections. Ensure at least 20 percent of the stormwater system is evaluated and addressed for illicit connections each year, starting with the areas determined as high-risk or in close proximity to the beach. If this work has already been performed, submit the results of that evaluation and corresponding repairs in the Initial Report.</p> <p>Homeless population. Implement an effective approach to prevent bacteria in runoff from areas inhabited by homeless people as needed, based on the size and duration of homeless encampments.</p> <p>Pet waste. Address potential pet waste discharges into the storm sewer system through the following actions:</p> <p>Continue developing and implementing a visual inspection program to identify high pet waste accumulation areas and develop a cleanup plan for these areas, including specific actions before winter rains;</p>	City of Half Moon Bay and San Mateo County	Complete within five years of the effective date of the TMDL

Phase 1 Implementation Actions	Implementing Parties	Schedule
<p>Install new or additional dog waste cleanup signs, waste bag dispensers, and trash bins in high dog waste accumulation areas;</p> <p>Evaluate and improve, as needed, the service frequency of dog waste bins; and</p> <p>Develop and implement a comprehensive pet waste public outreach and education campaign.</p> <p>Loading docks and dumpsters. Enhance inspection and enforcement of best management practices within ½ miles to the beach to control pollutants in runoff from loading docks, dumpsters, food service and refuse areas.</p>		
<p>Actively deploy best management practices to capture polluted runoff and reduce trash and sediment buildup (e.g., cleanout stormwater pipes, install trash capture devices and frequently remove trash, divert runoff from the beaches).</p>	<p>City of Half Moon Bay and San Mateo County</p>	<p>Complete within five years of the effective date of the TMDL</p>
